Chapter Example With Subheadings

This chapter is an example of using sub-headings that you want to appear in your Table of Contents. By default the TOC is set to go three levels deep. You can edit this by right-clicking on the Table of Contents and selecting *Edit Field*, then clicking on *Table of Contents* and edit the *Show Levels* from 3 to whatever you like.

Heading Level 2

You may notice that we have only built into this template 3 levels of EasyPDF Heading styles. You can create additional styles by going to the main menu and selecting *Format – Styles and Formatting*. Next, in the styles pane, click on *New Style*. You can then edit the new style and save it with whatever name you like.

Heading Level 3

This is the paragraph at the third level. This is the paragraph at the third level. This is the paragraph at the third level.
